One-half inch rainfall in the last 24 hours.  
River business has been generally good during the last month. The stage has been high enough to allow the big boats to run and the June rise which seems to have set in, promises a sufficient stage of water for some time to come. Freight business has been good throughout the month and at times heavy. Passenger business was swelled by numerous excursions, but the regular traffic was above normal.

The net fall from May 1 to June 1 was 10.1, the gauge registering 16.8 on May 1, and 6.7 this morning. While a considerable fall, the river has no more than fallen to normal conditions from the high water of the early spring. The river rose on the 6th, 7th, 8th, 15th, 20th and 31st.

"Masters and pilots are notified of the following changes in lights: Shawneetown Bar is to be shown as a float light when there is ten feet or less on the Evansville gauge at all other times, from its post. New light has been established in bend below Cloverport, to be known as Cloverport Bend. New light has been established at Galey Hollow, Indiana, to be known as Galey Hollow.
